BRUGG LIFTING
Going up.

ELEVATOR ROPE

Since 1896 Brugg Lifting has been at the very forefront of technological innovation. From introducing the concept of pre-forming strands and launching the first parallel laid rope, to creating alternatives for the elevator industry.

If you really want a rope that is ahead of the rest then seek it from a company that has led the pack in innovation for more than a century!

Brugg offers a complete line of elevator ropes, tools, and engineering services from our ISO 9001-2008 Certified production facility in Rome, Georgia, USA.
